

# anatomy comes to life.

*aaa annual meeting/eb 2006*

Join us in  
San  
Francisco!

APRIL 1 - 5, 2006

## EDUCATION & TEACHING TRACK

### UPCOMING DEADLINES

November 2, 2005

#### Abstract Submission

Submit an abstract today!

Email [exec@anatomy.org](mailto:exec@anatomy.org) to request a *Call for Abstracts* or visit the AAA website.

November 9, 2005

#### Student Travel Awards

Support for AAA student and postdoctoral members who present a paper or poster is up significantly for the 2006 Annual Meeting in San Francisco: \$350 travel grants for those who joined AAA at least one year prior to the abstract deadline of November 2 and \$250 travel grants for those who joined AAA less than one year prior to the abstract deadline.

February 6, 2006

#### Early Registration

February 17, 2006

#### Housing Reservations

### BASMAJIAN/WILLIAMS & WILKINS AWARD

AAA recognizes members teaching human or veterinary gross anatomy, no more than 10 years beyond accepting a faculty position, who have made outstanding accomplishments in anatomical sciences research and have demonstrated excellence and commitment to the teaching of gross anatomy. For more information and a nomination form, visit [www.anatomy.org](http://www.anatomy.org) and click on *Awards*. **Nomination Deadline: December 1, 2005**

AAA's Education and Teaching Track covers four full days, combining the traditional focus of curriculum content with an in-depth look at the present and future of who is doing the teaching and how anatomy is being taught. This year's program features:

#### Anatomy Education Breakfast Roundtables

Free breakfast and an open forum for sharing problems and advice about teaching anatomy.

#### Platform Sessions

- Teaching Innovations in Anatomy
- Teaching Anatomy to Non-medical Students

#### Teaching Symposia & Refresher Courses

- Master Class: The Autonomic Nervous System
- Refresher Course: The Musculoskeletal System
- Diagnostic Imaging as a Teaching Tool
- Online Publication of Educational Resources: Who Owns What?
- Role of Anatomy in Teaching Professionalism
- Workshop: Preparing Graduate Students to Teach the Anatomical Sciences
- Workshop: The Use of Tablet PCs in Teaching the Anatomical Sciences
