Annual Meeting at
Experimental Biology 2015
MARCH 28 – MARCH 31
BOSTON

Grow
Engage
Network

REGISTRATION AND ABSTRACT SUBMISSIONS ARE NOW OPEN.

Student/Postdoc Travel Awards Available
Travel awards of $250 and $350 are available for new and
renewing AAA members who submit an abstract and present
a poster or oral presentation. The application is part of
the abstract submission process, so apply online when you
submit your abstract. Visit www.anatomy.org/content/abawards
for details.

Welcome Our Guest Societies:
• Anatomical Society (AS)
• International Society of Vertebrate Morphology (ISVM)

“Engage and get involved by submitting an abstract by
November 6, 2014. Oral and poster presentations will be
programmed from the submitted abstracts.”

“Grow from the expertise of 100 speakers and
300 anatomy poster presentations over the span of four days. Top-notch presenters
include keynote speaker, Sean Carroll, plus two Nobel Laureate plenary
speakers – Eric Kandel and Stanley Prusiner.”

“Submit an Abstract by November 6, 2014
Go to www.anatomy.org/content/annualmeeting
to review the list of abstract topic categories and submit an abstract. You
may submit more than one abstract. Go to
www.anatomy.org to submit your abstract, apply for a travel award,
register for the meeting, and book your hotel.
Visit our website www.anatomy.org/content/annualmeeting
for program updates.”

DEADLINE DATES

Abstract Submission: November 6, 2014
Travel Award: November 6, 2014
Early Registration: January 21, 2015
Hotel Reservation: February 23, 2015

“...The AAA Annual Meeting provides an excellent opportunity to meet and network with new people and get feedback on my research and future career plans.”

“I was a first time attendee and plan on attending for many years to come. I loved all of the networking and professional development opportunities and really learned a lot.”

“...I always leave with great ideas to push my career forward. That’s what the AAA Annual Meeting does, it energizes you every time.”

Engage Network

with more than 900 faculty, postdoc, and students who share an interest in anatomy education and research. Join us for networking opportunities such as our Saturday Welcome Reception to kick-off the meeting, Poster Reception, Anatomy Lounge, and our Closing Awards Ceremony/Dinner on Tuesday night to close out the conference.

Engage and get involved by submitting an abstract by November 6, 2014. Oral and poster presentations will be programmed from the submitted abstracts.

Grow from the expertise of 100 speakers and 300 anatomy poster presentations over the span of four days. Top-notch presenters include keynote speaker, Sean Carroll, plus two Nobel Laureate plenary speakers – Eric Kandel and Stanley Prusiner.

Welcome Our Guest Societies:

- Anatomical Society (AS)
- International Society of Vertebrate Morphology (ISVM)
- Anatomists of FASEB | American Association of Anatomists
“The feeling of a close-knit anatomy community within a large EB meeting.”

Professional Development Sessions

- How to Mentor: Basic Science, Clinical Science, and Educational Scholarship Skills for Graduate Students and Postdocs
- Leaning In Without Falling Over: Supporting the Success of Women in Science
- Best Practices for Using Social Media as it Reshapes Academia and the Classroom

Educational Science Research & Teaching

- Anatomy Education Roundtable - Developing Effective Cognitive Strategies for Future Long Term Recall of Medical Knowledge
- “Back to Basics” Anatomy for Everyday Practice: Integrating Anatomy Education into the Clinical Years
- Didactic Methods in the Anatomical Sciences: How Does Technology Help or Hinder? (Hybrid)*
- Educational Neuroscience: Towards the Science of Learning
- Keep Calm and Carry On Educating
- Let’s Get EDucated! How Anatomists Can Help with Accreditation Requirements

“The there is always a collegial and interactive atmosphere at the meeting where friends and colleagues come together to enjoy each other’s science and catch up.”

Scientific Symposia

- Anatomy of Aging
- Breaking the Barrier: The Gastrointestinal Tract in Health and in Inflammatory Bowel Disease
- Cardiovascular Development and Disease
- Cilia in Development
- Craniofacial Tissues: Development, Repair and Regeneration
- Creation of Tissue-like Structures in Vitro Using Advanced Technologies
- Co-sponsored by the Anatomical Society
- Evolution, Development and Relationships between Heart and Head Muscles: Surprising Implications for Vertebrate Origins and Medicine
- Major Transformations of the Amniote Nose
- Making Connections: Comparative Biomechanics and Evolution of Joints
- Structures and Functions of Primary Cilia
- Anatomy and Genetics: How Phenomics Informs our Understanding of Genomes (Hybrid)*
- Co-sponsored by AAA’s Advisory Committee for Young Anatomists
- The Development and Control of Vertebrate Morphology
- Co-sponsored by the International Society of Vertebrate Morphologists
- The Evolutionary Tapestry of Vertebrate Morphology and Function
- Co-sponsored by the International Society of Vertebrate Morphologists
- Understanding the Zygoma: A Key Morphofunctional Partition in the Craniofacial Skeleton
- Vascular and Connective Tissue Imaging In Situ: Returning Bone to the Skeleton
- Function of the Extracellular Matrix in Development and Disease
- Joint ASBMB/AAA session

PLATFORM SESSIONS

- Anatomy Education*
- Biological Anthropology*
- Bones, Cartilage & Teeth*
- Cardiovascular Biology*
- Evolution and Comparative Anatomy*
- Neurobiology*
- Stem Cells, Tissue Engineering & Regeneration*

* Abstracts will be selected for oral presentation within this session. Please visit our website www.anatomy.org/content/annualmeeting to view the abstract topic categories.
