Fellow of the American Association of Anatomists (FAAA)

Submission Requirements

Documents required for Fellow nomination should clearly and concisely reflect the nominee's accomplishments. The completed nomination package should include:

- Nomination form
- A 100-word summary of the nominee's contributions to the anatomical sciences. The Fellow citation will be based on this summary.
- Nominee's curriculum vitae (full CV, including service and mentoring activities, not NIH biosketch)

Criteria

When naming Fellows, the Fellows Committee should determine which nominees are viewed as being in the top 10% tier of all eligible members. In evaluating nominees to elevate to the rank of Fellow, the Fellows Committee will rank nominees on the following criteria:

- Accomplishments in education and research
- Letter of recommendation
- Accomplishments in professional service
- Accomplishments in academic or corporate administration
