

AAA Applicant Information (please attach your NIH biosketch or curriculum vitae)

Name: _____
 Title: _____
 Institution: _____
 Department: _____
 Address: _____
 City: _____ State/Province: _____ Zip/Postal Code: _____ Country: _____
 Phone: _____ Fax: _____
 Email: _____ Personal/Professional Website: _____

For Student and Postdoc Applicants Only:

Advisor: _____ Advisor's Email: _____
 Expected Degree: _____ Expected Graduation Date: _____

For Associate Member Applicants Only:

Sponsoring Member: _____ Sponsoring Member's Email: _____

Membership Information/Annual Dues Category

Journal Selection(not included in HAPS or Associate memberships)

All members receive an electronic subscription to Anatomical Sciences Education. In addition, you may select one additional AAA journal, either The Anatomical Record or Developmental Dynamics. The Anatomical Record is available to regular members for an additional subscription fee of \$25

- The Anatomical Record** E-only **Developmental Dynamics** E-only
 The Anatomical Record in Print (Regular Members only) Additional \$25 fee **No thank you**, I do not want a journal subscription

Brief History

The American Association of Anatomists (AAA) was founded by Joseph Leidy in Washington, D.C. in 1888 for the "advancement of anatomical science." Through the individual efforts of its members, and collectively as a pre-eminent scientific society AAA has made many significant contributions in research and education.

Members have been recognized worldwide for leading edge scientific accomplishments in science and medicine, and the generation of documents that have literally changed the approach, direction and emphasis of anatomical science education around the world.

Our Mission

Advancing anatomical science through research, education, and professional development.

Our Vision

Serve as the gateway for conveying the relevance of biological structure as it relates to function from molecules to organisms, and the role of anatomy in team-based, interdisciplinary science, healthcare, and education.

Our Difference

AAA is dedicated to supporting and providing our members with opportunities to enhance their careers, expand their scientific knowledge, and grow their professional network.

“AAA is a great organization and provides many ways to become involved and **build careers**. As an example, AAA gave me the opportunity to give my first presentation as a graduate student, chair my first platform session as a postdoctoral fellow, organize my first symposium as an assistant professor, and as a professor, to take my first trip to China to participate in a meeting of the Chinese Anatomical Society.

So, AAA has continued to give me **opportunities to learn and network** from early career up to being a senior faculty member. AAA can do the same for you.”

Lydia DonCarlos, Ph.D., Professor
Loyola University Chicago
Member Since 1988
